The thing what really interesting at this time.

All people love travelling, of course, who's not? It means that people spend a lot of money for travelling sometimes. But if you think that travelling is just a waste of your time, it's probably not.

All kinds of travelling interesting and so excited. You can travel by bus, by car, by foot, by plane and more. It's a good chance to try new kinds of transport first.

Also we are develop yourself in any adventure. Hearing new languages, meet new people, learning a culture and more about new countries. Travelling it also a good time for relax and take a break from office and school. Travelling is kind of activities what good for all ages.

Last month me and my parents going abroad to my granny for the first time. Oh, It was amazing time I spent here, new climate, new language. I met new friends and improve my English language skill.

So this is my arguements and expierience about this theme. Travelling more, because it's not just a waste your money and time!
